Benori Knowledge is a global provider of custom research and analytics solutions across industries, including consumer & retail, technology, media & telecom, internet & e-commerce, professional services, financial services, healthcare, industrials and education & social. We offer solutions aimed at supporting our clients' strategic needs that are critical to accelerate their growth and value creation.

Our team of knowledge consultants is committed to minimising the challenges faced due to high costs, poor access and low quality of knowledge processes, and transforming them to deliver best-in-class actionable insights.

Headquartered in India, we serve clients across the world.

Simplifying Decisions.

Key words used are "Custom Research", "analytics solution", "support", "high costs (**cost optimization**)", "poor access (**enhance reach**)", "low quality (**high quality**)", "knowledge processes(**intelligent processes**)"

Strategy Support, Growth Solutions, Data Solutions are more internal

"**Rapid Research**" is a good naming as it conveys the value that it can deliver

Is there a possibility to use "Benori" instead of "Benori Knowledge"?

Praxis Business Enablement and Transformation (PraxBET)

Team specializes in leveraging management consulting approaches to diagnose problems and recommend solutions. PraxBET team is aligned with Verticals and works with a large battery of Domain Partners, who have been all practitioners and are experts in their fields.

We are transforming how clients consume management consulting.

We have an unique two-in-a-box model as all client engagements are led by Domain Partners (i.e. specialists who understand the subject deeply) and Project Delivery Leaders (who have mastered the craft of advisory and implementation). Our Leaders and teams work with C-suite to the front-line executives across business streams helping them with end-to-end business enablement, organizational transformation and revenue maximization support in an agile environment.
